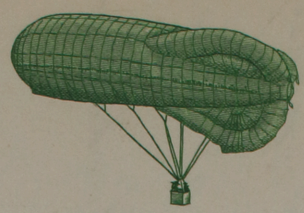
Acadia

California.



Fort Kamehameha, T. H.

Nov. 13, 1921.

Dear Friend:

Received your letter of Nov. 1. the 11th it took it almost as long as a letter from Indiana. I suppose the excuse you gave will have to do.

I am now staying with the 21st Company and going to an electrical school, don't have much to do, no guard or K. P. while at Arcadia where I had many place to go I was on duty most of the time, and here were there ain't many places

I don't have much to do but anyway when the six and a half months are up, which I still have to serve in the Army, then I will be free and can go were I please.

Alfano must be making a lot of money. he wrote me he was building a house and had bought a Ford. Holderbaum has been discharged and gone back to the States and as for Dale, he is the same.

Ft Kamehameha is a much prettier Post than Ft Ruger is this is a much larger Post and it is not so dead, although it is farther away from Honolulu and is little more diffault to get there but that doesn't hinder me as I don't go often

I don't go to Church now as much as I should as it isn't Xas dost as it was at Arcadia I neglect to go. There are certainly are plenty of Church's over here, one for most ever race and reglion.

The Company is going to the island of Hawaii the 26th of this month for a two weeks vacation that also includes myself no formations to stand just rest and have a good time

This is Sunday afternoon and always feel rather "blue" on Sundays so excuse all mistakes in this attempt of a letter

As ever a Friend.

Carl.
